

URGENT

LAST OPPORTUNITY
LOUGHBOROUGH & SHEPSHED Residents!!

SAY NO

TO MASSIVE 300,000 TON INCINERATOR AT NEWHURST QUARRY

Mon 10th Oct

**County Hall,
Glenfield**

(near Glenfield Hospital)

STARTS 2.00PM

PLEASE SUPPORT US

**BY COMING TO THE FINAL DECISION MEETING.
HELP US FILL THE MEETING TO SHOW
LEICESTERSHIRE COUNTY COUNCILLORS YOUR
STRONG OPPOSITION TO THIS
UNNECESSARY DEVELOPMENT**

An incinerator near Junction 23 of the M1 would:

- Ruin views and landscape in parts of Charnwood Forest Regional Park, The National Forest and the listed Garendon Park as well as Areas of Outstanding Natural Beauty
- Emit huge quantities of gases and particulates for more than 30 years with serious affect on air quality and the health of Charnwood residents
- Damage the reputation of Loughborough, Shepshed and the University as a healthy, beautiful place to live and study. What tourist, business or sportsperson would come to towns overlooked by a huge industrial incinerator?
- Biffa claim that the incinerator would be efficient, generating 20 Mega Watts of electricity. What they fail to say is that they would waste 70 Mega Watts!
- Have a negative effect on Leicestershire's excellent progress in recycling. Increased incineration means less recycling
- Have a negative effect on Global Warming by emitting huge quantities of Carbon Dioxide and Carbon Monoxide without incorporating carbon capture technology.

PLEASE HELP US PREVENT THIS DEVELOPMENT
